

# LICKEY HILLS GEO-CHAMPIONS

## What Do We Do?

We are an informal group of volunteers who work to protect and preserve the many geological sites around the Lickey Hills, and to promote them to the public as well as geological groups.

Our work involves:

- Quarry clearance sessions to keep the geology visible
- Group investigation days to further our understanding
- Group walks along the Geo-Champions trail
- Public and private 'walk & talk' days

Newcomers are always welcome to join us - and it's free!

People of all ages and abilities are encouraged to join the fun and get involved.
